

Marieke Kaajan in Chambers 2017

Met dank aan alle relaties en cliënten is Marieke Kaajan ook dit jaar met een mooie vermelding in de Chambers gids 2017 opgenomen.

Marieke Kaajan of ENVIR Advocaten focuses on nature conservation law, environmental law and planning law and is noted for her experience in the wind power sector. Sources state that she *“has top knowledge on anything ecological”* and one interviewee adds that *“she thinks with you and gets to understand you completely. She is pragmatic and fast.”*
